

Superior Solutions

PRODUCT SPECIFICATION REPORT

LAUNDRY SPOTTER is a ready to use liquid designed to remove a wide range of stains from laundry. Contains chelates, detergents, emulsifiers, and water soluble solvents.

LAUNDRY SPOTTER

PROD. #2241

Laundry Spotter and Additive

FEATURES	BENEFITS
Versatile	Removes a wider range of stains eliminating the need for various spotters.
Solvent Enhanced	Allows for effective removal of ink and oil based stains as well as food, juice, and protein stains.
Slow Evaporating	Laundry stain will not dry up during soak or dwell times.
Fast Acting	Most stains can be loosened for removal in 5 to 10 minutes.
Biodegradable	Provides for a cleaner environment.
Alkali Free	A safer alternate for employees over harsher alkaline type spotters.

APPLICATIONS & DILUTIONS

When used as directed, laundry spotter is safe to use on all types of fabric including synthetics and perma press. Removes: Tar, grease, ball point pen ink, wax, lipstick, paint, food, juice.

Directions for use:

- 1) **As Wash Additive:** Add 60 to 80 mL to full wash load.
- 2) **Stain Removal:** Apply **Laundry Spotter** at full concentration to stain before washing. Allow to soak 5 to 10 minutes then agitate to break down stain. Wash immediately using normal procedures. Heavy set stains may require two applications.
- 3) **Pre Soak Solution:** Add 1:20 parts of warm water. Soak for 10 to 15 minutes and wash as normal.

COMPANION PRODUCTS

SPECIFICATIONS

Physical Form	Liquid
Colour	Amber
Odour	Banana
pH (Concentrate)	11.0 – 12.0
Specific Gravity	1.005
Shelf Life	1 year minimum
Flash Point	None
WHMIS	Class D2B
TDG	Non-Regulated
